

# Windscreen Repair Scheme

Many motorists do not know that minor windscreen chips and cracks can be repaired without having to replace the whole windscreen. In fact, this has been widely practiced in USA, Europe and Australia. HSBC Life now offers this to you!

Here is how it works:

**Step 1** – Cleaning the damaged area for repair

**Step 2** – Filling the area with resin

**Step 3** – Hardening the resin with a UV light tool

**Step 4** – Removing excess resin and polishing the surface

## Proven benefits

Here are the proven benefits from using this technology:

- Lower Cost compared to replacement
- Faster than Replacement (between 20 - 40 mins)
- Better Results than replacement
- No Side Effects e.g. corrosion
- Environmentally Friendly

## Where to get it

We are partnering with Glass-Fix to provide this option. They are a leading windscreen repair specialist with more than 19 years' experience and certified by the National Windshield Repair Association of North America. They also offer a lifetime warranty on their repair.
