Investment Strategy	
<ul style="list-style-type: none"> The Fund invests globally at least 70% of its total assets in high yield fixed income transferable securities. The Fund may invest in the full spectrum of available fixed income transferable securities, including non-investment grade. Currency exposure is flexibly managed. As part of its investment objective the Fund may invest up to 20% in ABS and MBS whether investment grade or not. These may include asset-backed commercial paper, collateralised debt obligations, collateralised mortgage obligations, commercial mortgage-backed securities, credit-linked notes, real estate mortgage investment conduits, residential mortgage-backed securities and synthetic collateralised debt obligations. The underlying assets of the ABS and MBS may include loans, leases or receivables (such as credit card debt, automobile loans and student loans in the case of ABS and commercial and residential mortgages originating from a regulated and authorised financial institution in the case of MBS). The ABS and MBS in which the Fund invests may use leverage to increase return to investors. Certain ABS may be structured by using a derivative such as a credit default swap or a basket of such derivatives to gain exposure to the performance of securities of various issuers without having to invest in the securities directly. The Fund's exposure to Distressed Securities is limited to 10% of its total assets and its exposure to contingent convertible bonds is limited to 20% of total assets. The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management 	Refer to Section 5 of the Fund Summary for the further information on the investment focus and approach of the ILP Sub-Fund.

KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The price of Shares of the Fund and any income from them may fall as well as rise. These risk factors may cause you to lose some or all of your investment.	Refer to Section 7.1 of the Fund Summary for further information on risks of the ILP Sub-Fund.
Market and Credit Risks	
The Fund may be subject to Credit Risk of Issuers The Fund may be exposed to the credit/default risk of bonds that it invests in. In the event of bankruptcy or default of an issuer, the Fund may experience losses and incur costs. The actual or perceived downgrading of a rated debt security or its issuer could decrease the its value and liquidity of the security, and may have an adverse impact on the Fund. However, the Fund may continue to hold it to avoid a distressed sale. The Fund may be subject to Currency Risks Foreign currency exchange rate movements are likely to influence the returns to investors in Singapore, hence investors may be exposed to exchange rate risks. For Hedged Share Classes, while the Fund attempts to hedge currency risks, there can be no guarantee that it will be successful in doing so. The Fund may be subject to Interest Rate Risks An increase in interest rates may adversely affect the value of the bonds held by the Fund. The Fund may be subject to Sovereign Debt Risks	Refer to Section 7.2 of the Fund Summary for further information on market risk of the Underlying Sub-Fund.

The Fund may invest in bonds issued or guaranteed by governments or authorities, which may involve political, economic, default, or other risks.															
Liquidity Risks															
Redemptions may be suspended in certain circumstances detailed in the Fund's Prospectus.	Refer to Section 7.1 of the Fund Summary for information on liquidity risks of the ILP Sub-Fund and Section 9 of the Fund Summary for further information on Suspension of Dealings of the ILP Sub-Fund.														
Product-Specific Risks															
<p>The Fund may be subject to Distressed Securities Risks The Fund may invest in securities issued by a company that is in financial difficulty or in default. This involves significant risk. There is no guarantee that any exchange offer or reorganisation will be successfully completed</p> <p>The Fund may be subject to Non-Investment Grade Bonds Risks The Fund may invest in non-investment grade bonds. This may subject the Fund to higher credit/default risks, volatility and liquidity risks than investment grade bonds.</p>	Refer to Section 7.2 of the Fund Summary for further information on specific risks of the Underlying Sub-Fund.
