Currency	Liquidity	Market

Outcomes to the Shareholder *Potential impact of the risks above*

Loss	Volatility	Failure to meet the Sub-Fund's objective.
Shareholders could lose some or all of their money.	Shares of the Sub-Fund will fluctuate in value.	

GENERAL DISCLOSURES

Before investing, obtain and review the current prospectus and any applicable local offering document. These documents, as well as the annual and semi-annual reports and the articles of incorporation, are available free from your financial adviser, your J.P. Morgan Asset Management regional contact, the fund's issuer (see below) or at www.jpmm.lu.

This material should not be considered as advice or an investment recommendation. Fund holdings and performance are likely to have changed since the report date. No provider of information presented here, including index and ratings information, is liable for damages or losses of any type arising from use of their information. No warranty of accuracy is given and no liability in respect of any error or omission is accepted.

To the extent permitted by applicable law, we may record telephone calls and monitor electronic communications to comply with our legal and regulatory obligations and internal policies. Personal data will be collected, stored and

processed by J.P. Morgan Asset Management in accordance with our [Singapore privacy policy](#)

For additional information on the sub-fund's target market please refer to the Prospectus.

Synthetic risk and reward indicator Based on share class volatility for the past 5 years. See Key Investor Information Document (KIID) for details.

Performance information

Source: J.P. Morgan Asset Management. Share class performance is shown based on the NAV (net asset value) of the share class with income (gross) reinvested including actual ongoing charges excluding any entry and exit fees.

The return of your investment may change as a result of currency fluctuations if your investment is made in a currency other than that used in the past performance calculation.

Indices do not include fees or operating expenses and you cannot invest in

them.

The benchmark is for comparative purposes only unless specifically referenced in the Sub-Funds' Investment Objective and Policy.

For reactivated share classes the performance is shown from the date of reactivation and not the share class launch date.

Prior to 30/11/2021 the benchmark was MSCI AC ASEAN Index (Total Return Net).

Holdings information

Market Cap excludes cash.

ISSUER

JPMorgan Asset Management (Singapore) Limited (Co. Reg. No. 197601586K). In Singapore, this advertisement or publication has not been reviewed or endorsed by the Monetary Authority of Singapore. It does not constitute investment advice, or an offer to sell, or a solicitation of an offer to buy any security, investment product or service. Informational sources are considered reliable but you should conduct your own verification of information contained herein. Investment involves risk. Investments in funds are not deposits and are not considered as being comparable to deposits.

Past performance is not indicative of future performance and investors may not get back the full or any part of the amount invested. Dividend distributions if any are not guaranteed and are made at the manager's discretion. Fund's net asset value may likely have high volatility due to its investment policies or portfolio management techniques. Funds which are invested in emerging markets, smaller companies and financial derivative instruments may also involve higher risks and are usually more sensitive to price movements. Any applicable currency hedging process may not give a precise hedge and there is no guarantee that any hedging will be successful. Investors in a currency hedged fund or share class may have exposure to currencies other than the currency of their fund or share class. Investors should make their own

investigation or evaluation or seek independent advice prior to making any investment. Please refer to the relevant offering document(s) for details, including the risk factors, before investing. Information in relation to restricted foreign schemes is intended for institutional investors and relevant persons as defined by the Singapore Securities and Futures Act only. Such schemes have not been approved for retail sale in Singapore. For more information, please contact your bank, financial adviser or call us at (65) 6882 1328. This document may not be reproduced or transmitted, in whole or in part, to third parties except as agreed in writing by JPMorgan Asset Management (Singapore) Limited.

Issued by JPMorgan Asset Management (Singapore) Limited (Co. Reg. No. 197601586K). All rights reserved.

In case of any inconsistency in translations of this document, the English version will prevail.

DEFINITIONS

NAV Net Asset Value of a fund's assets less its liabilities per Share.

Entry/Exit/Ongoing charge Entry charge means Initial Charge while Exit charge means Redemption Charge. The entry and exit charges are the maximum charge and investors may pay less. The Ongoing charge is based on the last year's expenses and may vary from year to year. Further information on charges can be found in the "Management and Fund Charges" section of the Prospectus which may be obtained from the investor's financial adviser or distributor.

Overall Morningstar Rating™ assessment of a fund's past performance, based on both return and risk and shows how similar investments compare with their competitors. Investment decisions should not be based on a high rating alone.

Correlation measures the relationship between the movement of the fund and its benchmark. A correlation of 1.00 indicates that the fund perfectly matched its benchmark.

Alpha (%) a measure of excess return generated by a manager compared to the benchmark. An alpha of 1.00 indicates that a fund has outperformed its benchmark by 1%.

Beta a measure of a fund's sensitivity to market movements (as represented by the fund's benchmark). A beta of 1.10 suggests the fund could perform 10% better than the benchmark in up markets and 10% worse in down markets, assuming all other factors remain constant.

Annualised volatility (%) an absolute measure of volatility and measures the extent to which returns vary up and down over a given period. High volatility means that the returns have been more variable over time. The measure is expressed as an annualised value.

Sharpe ratio measures the performance of an investment adjusting for the amount of risk taken (compared a risk-free investment). The higher the Sharpe ratio the better the returns compared to the risk taken.

Tracking error (%) measures how much a fund's returns deviate from those of the benchmark. The lower the number the closer the fund's historic performance has followed its benchmark.

Information ratio (IR) measures if a manager is outperforming or underperforming the benchmark and accounts for the risk taken to achieve the returns. A manager who outperforms a benchmark by 2% p.a. will have a higher IR than a manager with the same outperformance but who takes more risk.
