KEY FEATURES OF THE ILP SUB-FUND

WHAT ARE YOU INVESTING IN?

The ILP Sub-Fund invests 100% into Schroder Singapore Trust (the "Trust"), a stand-alone unit trust constituted in Singapore.

The investment objective of the Trust is to achieve long-term capital growth through primarily (i.e. approximately two thirds of its assets) investing in securities of companies listed on the Singapore Exchange Securities Trading Limited. The portfolio of the Trust will be broadly diversified with no specific industry or sectoral emphasis.

Refer to Section 2, Section 5 and Section 16 of the Fund Summary for further information on features of the ILP Sub-Fund.

¹The ILP Sub-Fund is not classified as Excluded Investment Product.

The Trust does not intend to declare dividend.	
Investment Strategy	
The Manager’s investment approach is based on the belief that fundamental analysis of companies using its local research resources provides it a competitive advantage and that companies with consistent above average growth produce superior stock market returns. The net asset value of the Trust is likely to have high volatility due to its investment policies or portfolio management techniques.	Refer to Section 5 of the Fund Summary for the further information on the investment focus and approach of the ILP Sub-Fund.
Parties Involved	
WHO ARE YOU INVESTING WITH? <ul style="list-style-type: none">• The Manager is Schroder Investment Management (Singapore) Ltd.• The Trustee is HSBC Institutional Trust Services (Singapore) Limited.• The custodian is The Hongkong and Shanghai Banking Corporation Limited.	Refer to Section 3 of the Fund Summary for further information on the roles and responsibilities of these entities and what happens if they become insolvent.
Key Risks	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? <p>The value of the product may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:</p>	Refer to Section 7.1 of the Fund Summary for further information on risks of the ILP Sub-Fund.
Market and Credit Risks	
You are exposed to market risk. <p>The Trust is exposed to the market risk in the regions in which it invests. The value of investments by the Trust may go up and down due to changing economic, political or market conditions, or due to an issuer’s individual situation.</p>	Refer to Section 7.2 of the Fund Summary for further information on market risk of the Underlying Sub-Fund.
Liquidity Risks	
There is no secondary market for the Trust. All realization requests should be submitted to HSBC Life.	Refer to Section 7.1 of the Fund Summary for information on liquidity risks of the ILP Sub-Fund and Section 9 of the Fund Summary for further information on Suspension of Dealings of the ILP Sub-Fund.
Product-Specific Risks	
You are exposed to equity risk. <p>The Trust may invest in stocks and other equity securities and their derivatives which are subject to market risks that historically have resulted in greater price volatility than that experienced by bonds and other fixed income securities. The Trust may also invest in convertible instruments which may be converted into equity. A convertible instrument tends to yield a fairly stable return before conversion, but its price usually has a greater volatility than that of the underlying equity.</p>	Refer to Section 7.2 of the Fund Summary for further information on specific risks of the Underlying Sub-Fund.
You are exposed to financial derivatives risk. <p>The Trust may use financial derivatives. The use of futures, options, warrants, forwards, swaps or swap options involves increased risks. The Trust’s ability to use such instruments successfully depends on the Manager’s ability to accurately predict movements in stock prices, interest rates, currency exchange rates or other economic factors and the availability of liquid markets. If the Manager’s predictions are wrong, or if the financial derivatives do not work as anticipated, the Trust could suffer greater losses than if the Trust had not used the financial derivatives.</p>	
You are exposed to currency risk.	

The assets and liabilities of the Trust may be denominated in currencies other than the base currency of the Trust or the currency of denomination of the relevant Class (the “Class Currency”) (as the case may be) and the Trust may be affected favorably or unfavorably by exchange control regulations or changes in the exchange rates between the base currency of the Trust or the relevant Class Currency (as the case may be) and such other currencies. If the currency in which a security is denominated appreciates against the base currency of the Trust or the relevant Class Currency (as the case may be), the value of the security would increase. Conversely, a decline in the exchange rate of the base currency of the Trust or the relevant Class Currency (as the case may be) would adversely affect the value of the security.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The NAV per Unit of each of the Class A Units is published at the Manager’s website at <http://www.schroders.com.sg> one (1) Business Day after the relevant Dealing Day.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You can exit or partially exit the ILP Sub-Fund at any time by informing HSBC Life (Singapore) Pte. Ltd. (“**HSBC Life**”), either directly or through your Financial Consultant from whom you purchased the ILP Sub-Fund. If your application reaches our correspondence address before 3.30pm on a business day, it will be processed on the same business day. If your application is received after 3:30pm, it will be processed on the next business day. The units withdrawn will be realised at the unit price of the ILP Sub-Fund on the valuation date immediately following the date we accept your written application. The withdrawal proceeds will usually be paid out within 6 business days from the day we process your valid application to exit or partially exit the ILP Sub-Fund.

The following is an illustration of the withdrawal amount** that you will receive from the ILP Sub-Fund based on withdrawal of 1,000 units, and unit price of \$1.50 assuming the policy is surrendered in the first year with surrender penalty charge of 70% on the account value.

$$(1,000 \times \$1.50) - 70\% (1,000 \times \$1.50) = \$450$$

Gross withdrawal amount - surrender penalty charge = Net withdrawal amount

** You should also refer to the Product Summary for information on any surrender penalty that may be applicable.

If you decide to terminate the Investment-Linked Policy within the free-look period of receiving your Investment-Linked Policy, HSBC Life will refund the initial premium you paid without interest, without incurring the fees and charges as stated above, less any medical and/or underwriting expenses incurred in accepting your application; and a sum to account for market fluctuation in respect of your units as determined by HSBC

Refer to Section 13 of the Product Summary for more information on valuation, and Sections 7 and 8 of the Product Summary for more information on withdrawal and switching.

Life. Please note that no top-up, fund switching, partial withdrawal or surrender is allowed during the free-look period.
