

To use XFA-based PDF forms on Chrome, perform the following steps to configure Chrome to open PDFs using Adobe Reader or Adobe Acrobat.

Note:

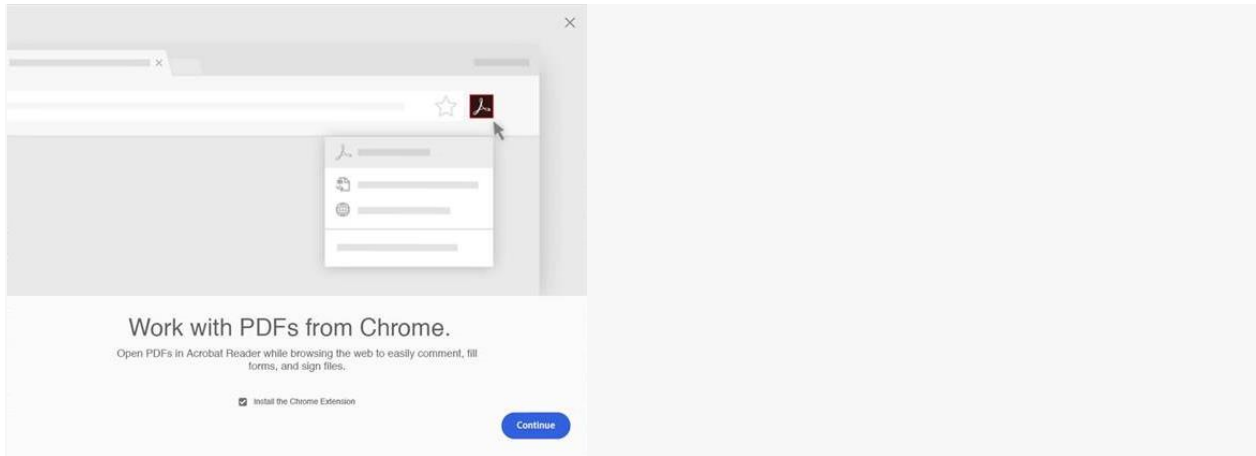

Ensure that you have Adobe Reader or Adobe Acrobat installed on your machine.

Configure Chrome

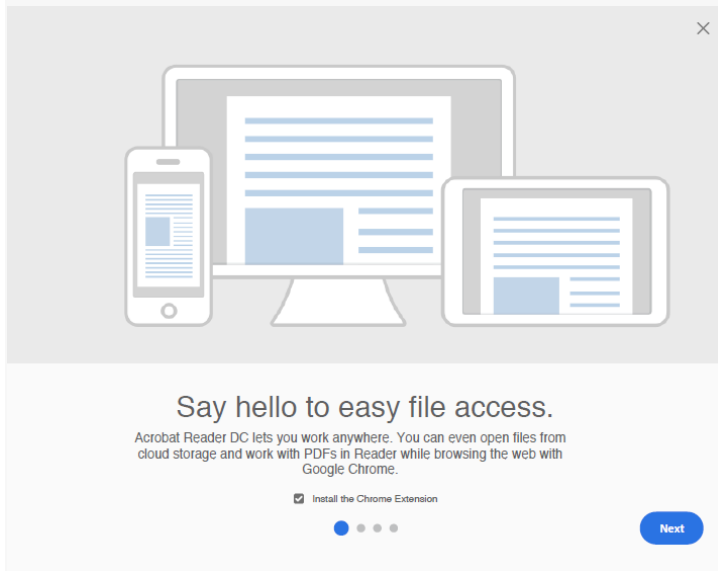

The extension is not installed automatically with Acrobat Reader. If Acrobat Reader is the default PDF owner on your computer, you're prompted to install the extension when you launch Acrobat Reader. Once the extension is installed, you must activate it before use.

Steps to install and enable Acrobat Reader Chrome extension:

1. If Acrobat Reader is the default PDF owner on your computer, you're prompted to install the extension when you launch Acrobat Reader.

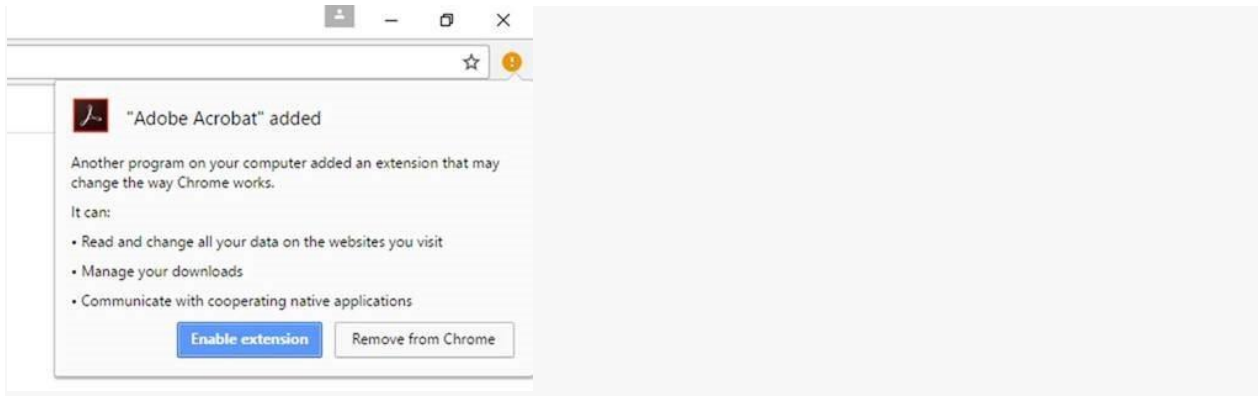

Install the Chrome extension prompt in case of Acrobat Reader update

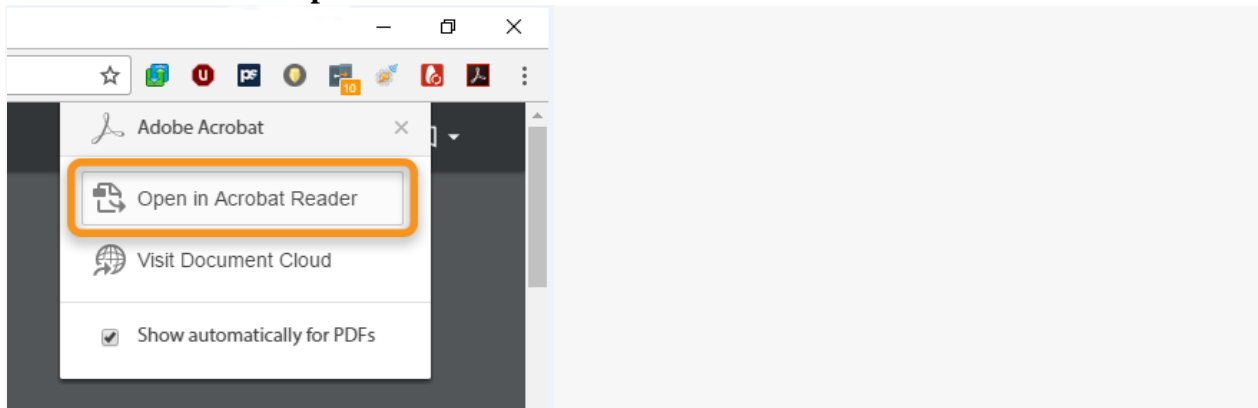

Install the Chrome extension prompt in case of fresh Acrobat Reader installation

2. Click **Continue** or **Next**. The extension is installed and added to Chrome.
3. Open Google Chrome. You'll see a prompt as shown in the screenshot below. Click the **Enable extension** button.

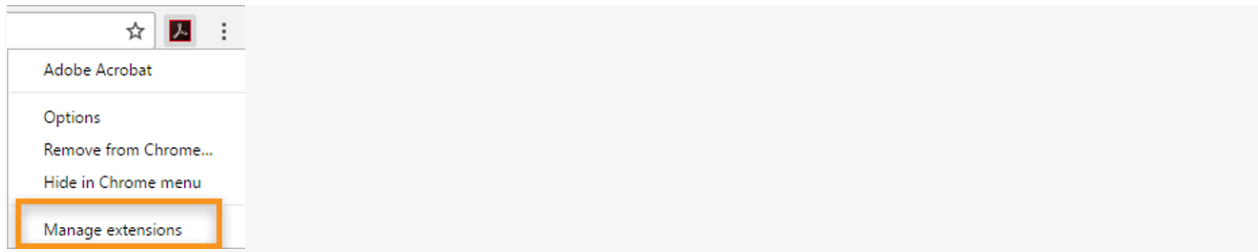

Using "Open in Acrobat Reader" option for PDFs opened in Chrome browser

When you open a PDF in Chrome, you see the Adobe Acrobat prompt in the upper-right corner of the window. Click **Open in Acrobat Reader**.

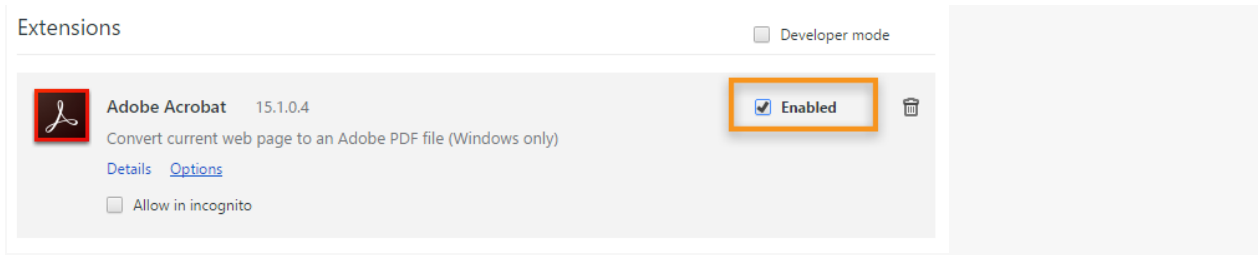

Disable the Chrome extension

1. Right-click the extension, and then choose **Manage extensions**.

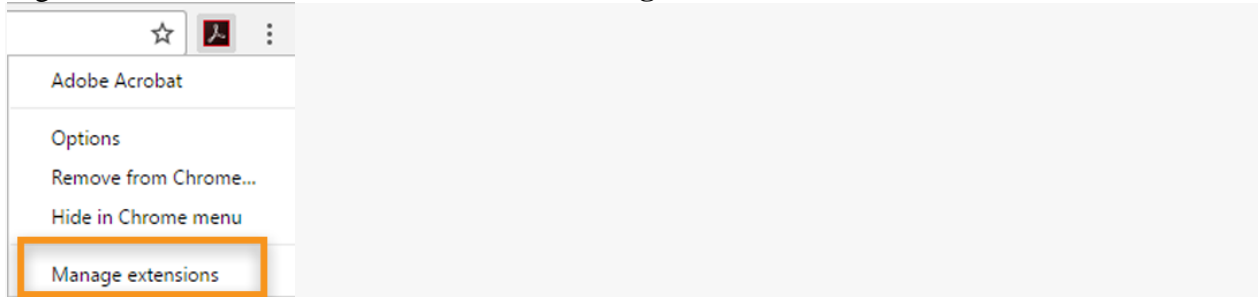

2. Clear the **Enabled** check box.

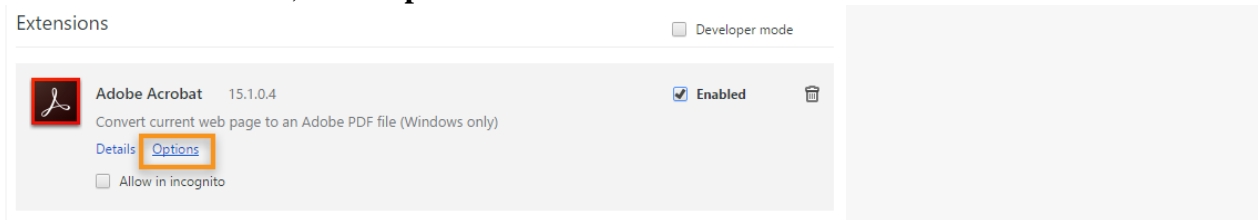

Opt out of the Product Improvement Program

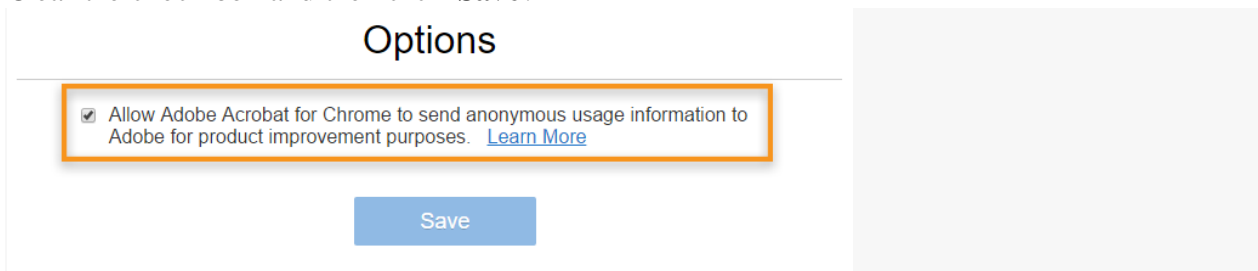

1. Right-click the extension, and then choose **Manage extensions**.

2. Under Adobe Acrobat, click **Options**.

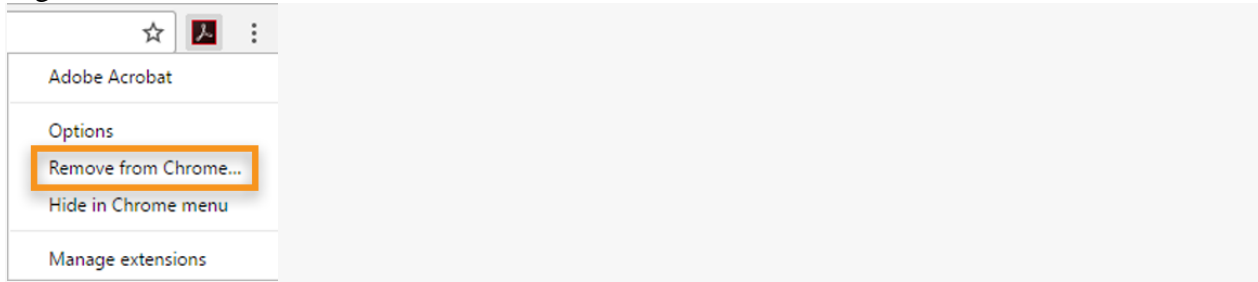

3. Clear the check box and then click **Save**.

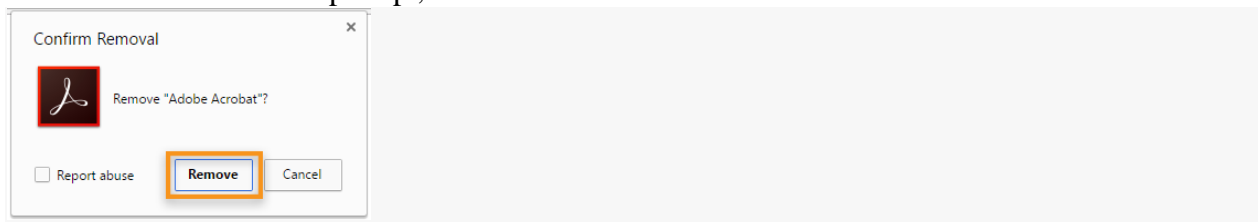

Remove the Chrome extension

1. Right-click the extension, and then choose **Remove from Chrome**.

2. In the Confirm Removal prompt, click **Remove**.

Solution: Revert to Adobe PDF plug-in

Choose your browser and system:

Filter

by:

Manually change your browser preferences so that it uses the Acrobat or Reader PDF viewer.

Chrome on Mac or Windows

Chrome and Acrobat are no longer compatible. For more information, see [Change in support for Acrobat and Reader plug-ins in modern web browsers.](#)
