

HSBC Life

EmpoweredMum

Stay confident from pregnancy
to parenthood

HSBC Life

Having a child is a joyous miracle. While it is wonderful and exciting to navigate the adventure of parenthood, it can also have its challenging moments.

HSBC Life EmpoweredMum is a robust prenatal plan that empowers expecting mothers from pregnancy to parenthood, providing comprehensive coverage for pregnancy complications and hospital care. It can be purchased through **HSBC Life HappyMummy** and **HSBC Life HappyFamily** – 2 bundled plans that enhance the protection for you and your newborn, or ensure your family is protected respectively.

Delivering a safe and happy journey for mums and babies

A prenatal plan is essential to every expectant mother as it provides coverage for pregnancy complications and ensures a well-insured pregnancy journey. Plan ahead of your pregnancy with our comprehensive prenatal plan and benefits to protect yourself and your newborn.

Important notes

The plans shown in this brochure are underwritten by HSBC Life (Singapore) Pte. Ltd. (Reg. No.199903512M). This brochure contains only general information and does not have regard to the specific investment objectives, financial situation and the particular needs of any specific person. This is not a contract of insurance and is not intended as an offer or recommendation to buy the product. A copy of the product summary may be obtained from our authorised product distributors. You should read the product summary, product highlights sheets and fund summary before deciding whether to purchase the product and subscribe for units in the ILP sub-funds. You may wish to seek advice from a Financial Planner before making a commitment to purchase the product. In the event that you choose not to seek advice from a Financial Planner, you should consider whether the product in question is suitable for you. Please refer to the general provisions for the exact terms and conditions, specific details and exclusion of this product. Investments in this plan are subject to investment risks including the possible loss of principal amount invested. The value of the units may rise as well as fall. Past performance is not necessarily indicative of future performance. As buying a life insurance policy is a long-term commitment, an early termination of the policy usually incurs high cost and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. Buying health insurance products that are not suitable for you may impact your ability to finance your future healthcare needs. It is also detrimental to replace an existing life insurance policy with a new one as the new policy may cost more or have fewer benefits at the same cost.

This policy is protected under the Policy Owners' Protection Scheme which is administered by the Singapore Deposit Insurance Corporation (SDIC). Coverage for your policy is automatic and no further action is required from you. For more information on the types of benefits that are covered under the scheme as well as the limits of coverage, where applicable, please contact us or visit the LIA or SDIC websites (www.lia.org.sg or www.sdic.org.sg).
