You should read the product summary, product highlights sheets and fund summary before deciding whether to purchase the product and subscribe for units in the ILP sub-funds. In the event that you choose not to seek advice from a Financial Planner, you should consider whether the product in question is suitable for you. Please refer to the general provisions for the exact terms and conditions, specific details and exclusion of this product. As buying a life insurance policy is a long-term commitment, an early termination of the policy usually incurs high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. It is detrimental to replace an existing life insurance policy with a new one as the new policy may cost more or have fewer benefits at the same cost.
